

How to use Yumcha Finance

Go to the website at <https://yumcha.finance/>

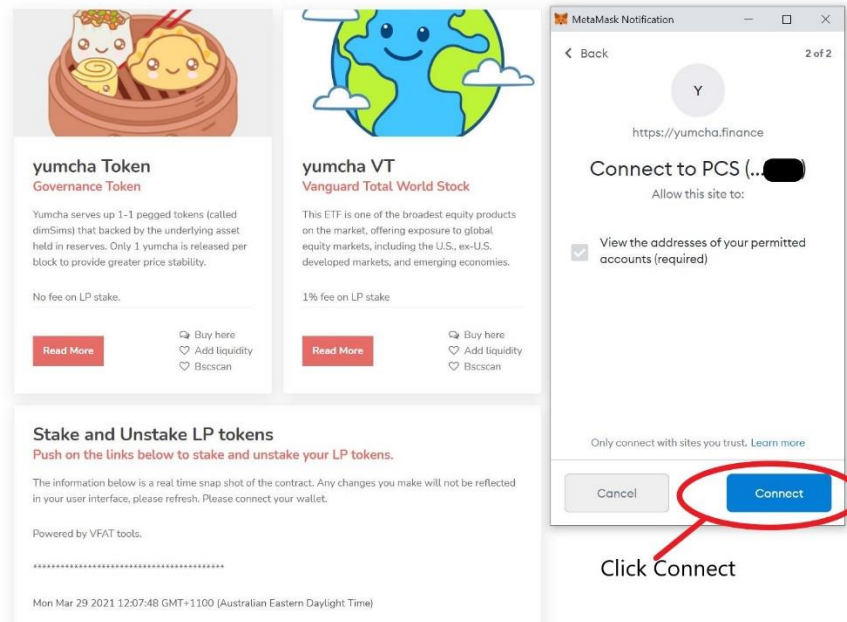

The first time using the site you will get you a pop up asking you to connect like below;

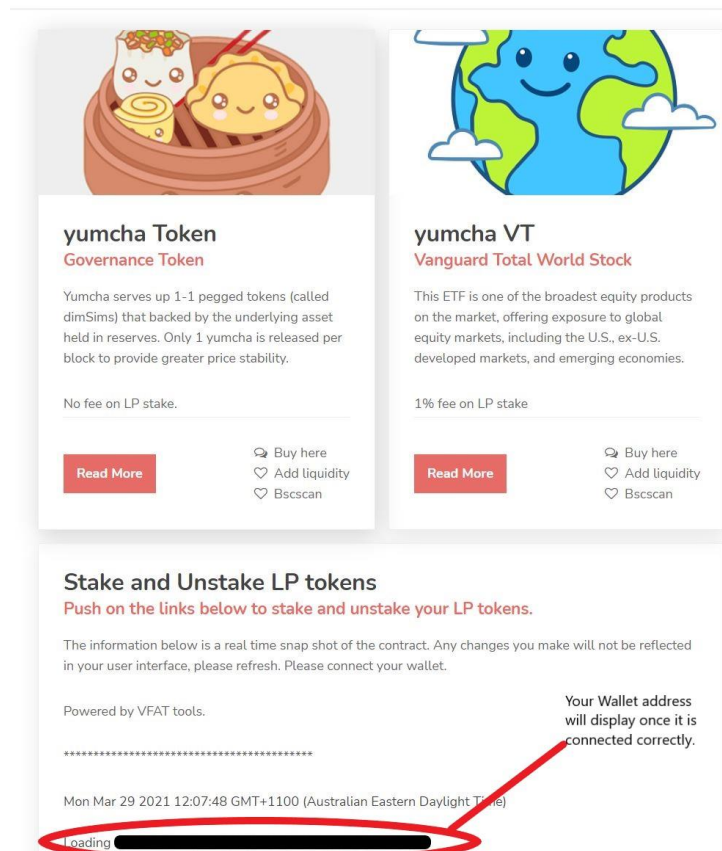

This is asking you which wallet address(s) you want to allow to interact with Yumcha Finance

You can always change these permissions at a later stage.

Click “Next” and it will bring you to a confirmation window;

Click “Connect” to confirm this connection. Once connected correctly your wallet address should display on the website page like below;

How to purchase Yumcha or ycVT tokens

There are a few ways to purchase the Yumcha or ycVT tokens.

1. PancakeSwap

Yumcha Token

<https://exchange.pancakeswap.finance/#/swap?outputCurrency=0xc7d0ce2961396d02059f06e8df7dd37e6809d478>

Yumcha VT Token

<https://exchange.pancakeswap.finance/#/swap?outputCurrency=0x7D0943bD8225848Ecd84Cdec36c39f4470494F07>

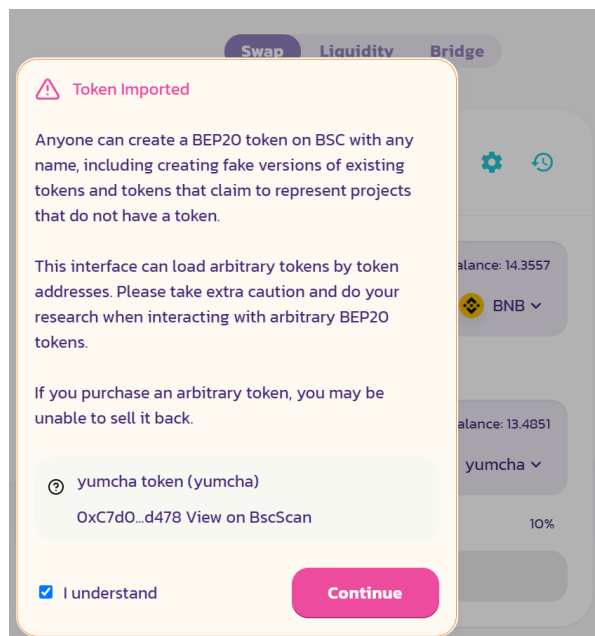

2. 1Inch

Yumcha Token

<https://1inch.exchange/#/BUSD/0xC7d0CE2961396d02059f06e8DF7Dd37E6809d478>

Yumcha VT Token

<https://1inch.exchange/#/BUSD/0x7D0943bD8225848Ecd84Cdec36c39f4470494F07>

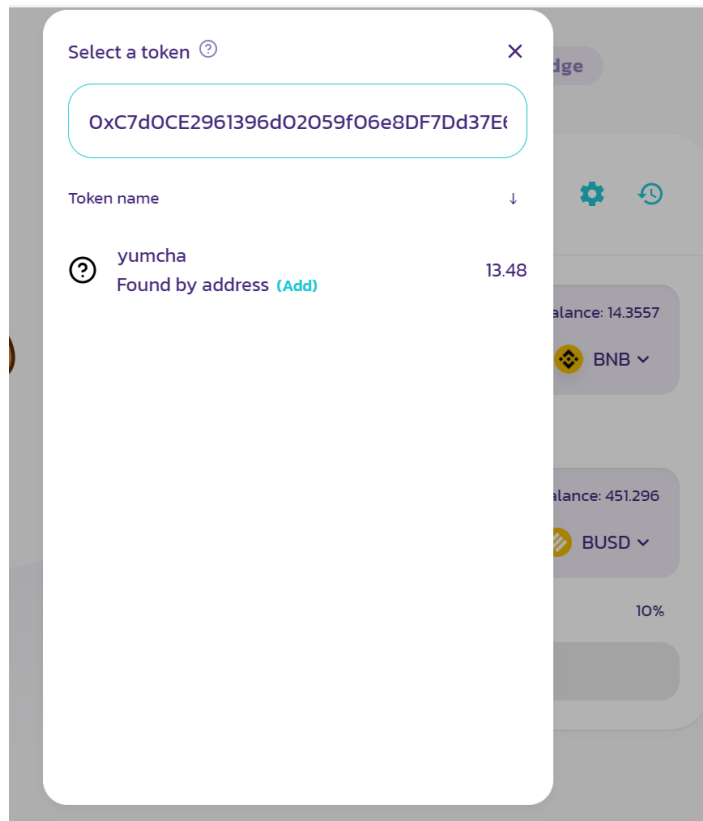

PCS Screenshot

Click “I understand” and then “Continue”.

Tip: you can copy the token address and paste into the token search and bookmark it for future use;

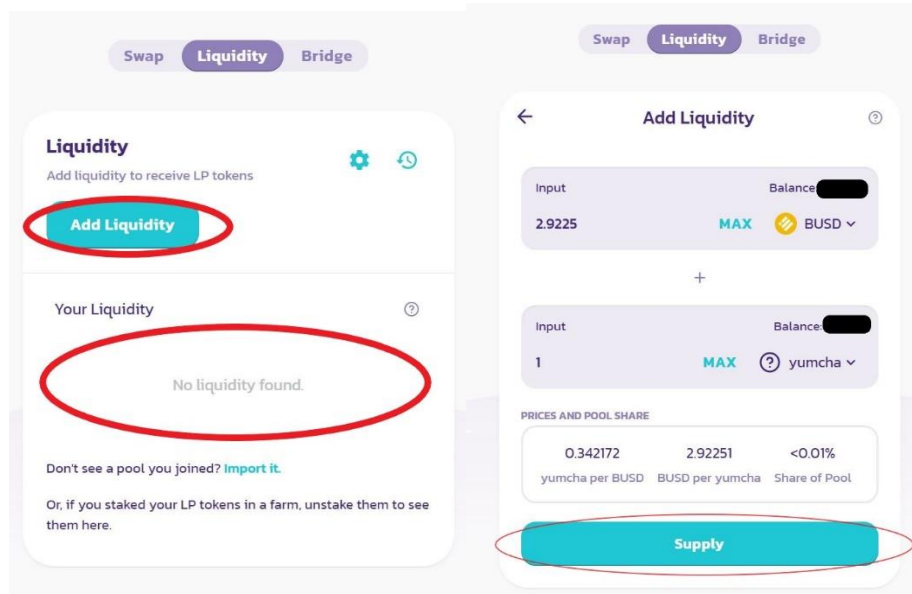

Paste address of Yumcha or ycVT into the search token bar and it will locate the token for you.

You can then click the “Add” button next to the token to add it your list of token for future use.

How to add liquidity

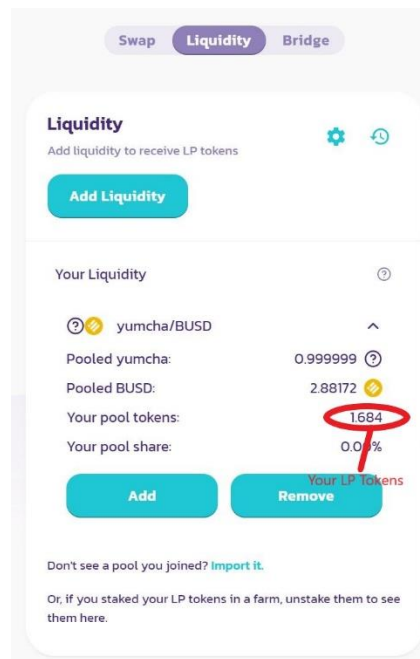

PancakeSwap - <https://exchange.pancakeswap.finance/#/pool>

Click “Add Liquidity” then chose which pairs you want to combine eg: BUSD + Yumcha

Then click “Supply” to at the two tokens and receive a LP token in return.

Note: When doing it for the first time it will ask you to “Approve Yumcha”

Staking/Unstaking LP Tokens and Claiming rewards

Once you have your wallet connected and supplied liquidity you can now stake your LP tokens to gain Yumcha tokens as rewards

Powered by VFAT tools.

Loading

[yumcha]-[BUSD] Cake LP [+] [-] [<=>] Price: \$3.44 TVL: \$237,004.37

yumcha Price: \$2.93

BUSD Price: \$0.99

Staked: 54607.2477 Cake-LP (\$187,984.25)

yumcha Per Week: 100800.00 (\$295,615.07)

APR: Day 22.47% Week 157.26% Year 8177.27%

You are staking [redacted] [yumcha]-[BUSD] Cake LP (\$ [redacted]), [redacted]% of the pool.

Estimated yumcha earnings: Day [redacted] Week [redacted] Year [redacted]
(\$ [redacted])

Your LP tokens comprise of [redacted] yumcha + [redacted] BUSD

Stake 0.00 [yumcha]-[BUSD] Cake LP

Unstake [redacted] [yumcha]-[BUSD] Cake LP

Claim 42.08 yumcha (\$123.41)

Staking or unstaking also claims rewards.

Once connected correctly your wallet address will appear here

This section displays what your holdings are in this pool

This section displays what your estimated earnings will be based off of your holdings

This section displays your LP composition

Click this section to stake

Click this section to unstake

Click this section to harvest your rewards

How to unpair your LP Tokens

Once you removed your LP Tokens from the Yumcha Finance Website via the link

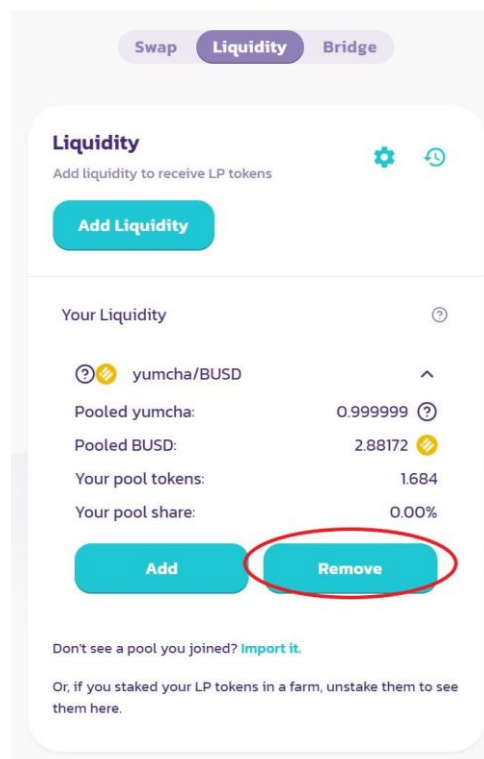

Your LP Tokens will be sitting in your wallet

You can then go to

PancakeSwap - <https://exchange.pancakeswap.finance/#/pool>

to convert your LP tokens into their respective pairs.

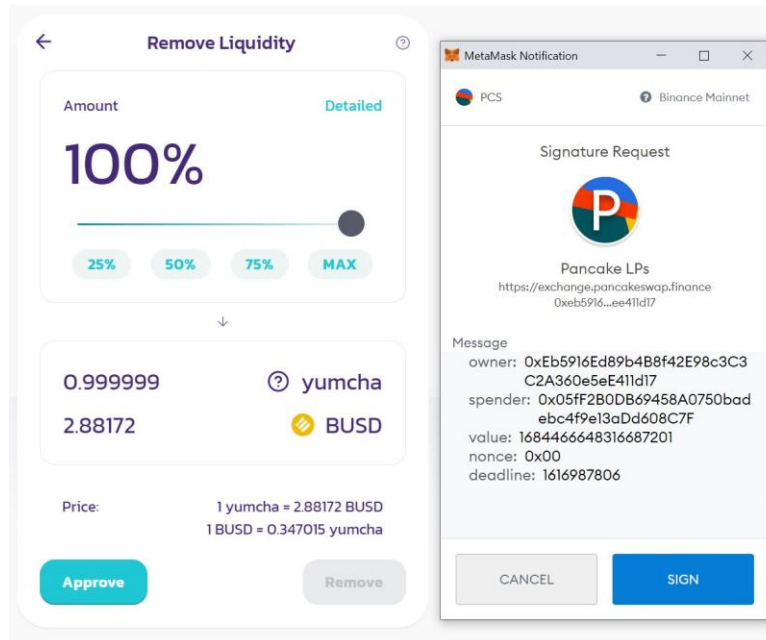

For example BUSD + Yumcha;

Click "Remove"

Then you select how much you want to remove or “MAX”

Then Click “Approve” then a pop up will appear for you to “Sign”

Then the “Remove” button will no longer be greyed out

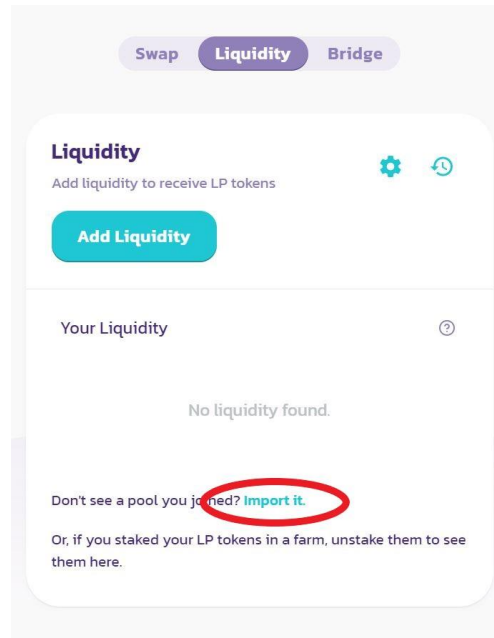

Click “Remove” and confirm

and WHALLA!

You have BUSD and Yumcha tokens separated in your wallet again.

If for some reason your LP tokens don't appear on the Liquidity Screen click on the "Import It"

Then choose the pairs you want to import in this case BUSD and Yumcha
